

FRONTEND DEVELOPER

YOUR WORK AREA INCLUDES:

- › Proficiency in working with HTML5, JS and common Frameworks (preferably jQuery)
- › AJAX, responsive Design, JSON should not be alien for you
- › Proficiency in working with Photoshop and Illustrator
- › PHP and MySQL skills are desirable
- › Knowledge of CMS systems is advantageous
- › You have a good sense for timing, animation and „feel“ of a website

YOUR PROFILE

The following personal characteristics fit with us:

We are constantly looking for motivated talents equipped with a high awareness of quality – be it programming, design or project management. As a Frontend Developer, you ideally have a marked appreciation for the latest web technologies and you autodidactically bring ideas and insights into your own work. Also, you enjoy working in interdisciplinary teams and you have a keen sense for the challenges of working at the interface of programming and design. If clean code is just as dear to your heart as it is to ours: come work with us!

AGENCY PROFILE

We are an owner-operated creative agency situated in the heart of Frankfurt am Main. Here, a team of more than 20 motivated minds works collaboratively with international clients from the Fashion, Lifestyle and Financial Services sectors. We put emphasis on a positive work environment shaped by the inspiring mix of specialists and generalists: equipped with a natural curiosity for all things related to technology, innovative design, software development and clientoriented project management.

Aside from that, we can offer you a more than stunning view of the Frankfurt Skyline – promise.

WE OFFER:

- › Interdisciplinary teams and joint work on international clients
- › Exciting projects with motivated colleagues
- › Open, professional work atmosphere and flat hierarchies
- › High level of quality awareness in all work areas
- › Professional development and talent promotion through a demanding and creative work environment
- › Beautiful office spaces with an unmatched view of the Frankfurt Skyline
